Music therapist

For almost thirty years I have been helping people with disabilities who are seriously, very seriously, and blind and partially sighted minors with my profession.

MiA, Listening Music Therapy

I love to publish music therapy and listening reflections on this internet reality <http://musicoterapieinascolto.com/mia-cosa-e-and-cosa-promuovas> of which I am the creator and manager.

Essayist

Listening, the epistemological dimension, the emotional dimension, the ethnomusicological dimension, in particular, that of Marius Schneider, the musical dimension, the modified states of consciousness, iatromusic and tarantism in music therapy are the themes that I face and deal with in these books:

Bonardi G., *Ascoltazioni*, by StreetLib 2016 digital and / or paper version:
